

# LEGOLAND® Holiday Village

Pirate-themed adventure golf at one of Europe's premier fun parks

Pirate Adventure Golf is a delightful 15-hole adventure golf course located at the LEGOLAND® Holiday Village, just outside the main entrance to the LEGOLAND® Resort Deutschland. The holiday village complex also includes the 142-room "Pirate Island" hotel, 4 restaurants and a large pirate-themed playground. During the season, some 2,600 people lodge at the holiday village after the fun park has closed for the day.

The Pirate Adventure Golf course can be played by people of all ages - from 3 to 90 years of age - regardless of skill or ability; it is also fully adapted for persons with mobility disabilities. Fun obstacles include a massive skull and a huge coiled snake, a treasure trove in a captain's sea chest and a life-sized alligator built with hundreds of LEGO® bricks.

*"We decided to partner with City Golf Europe because we were impressed by the technical expertise and the advice we were given, especially in areas of importance like health and safety, as well as the consideration of children's needs. We also preferred the quality of their adventure mini golf courses."*

Christian Sichert, director of the LEGOLAND Holiday Village.

Although intended primarily for guests at the holiday village, the Pirate Adventure Golf course also welcomes the general public. Its long opening hours mean that it is open in the evenings, after the main resort has closed.
