GOLF EUROPE

City Combi

City Combi offers a varied putting experience with adjustable obstacles and is perfect for leisure areas with limited space.

City Combi consists of 2 holes and has adjustable obstacles, offering a fun and varied golf experience even in small areas. City Combi is an ideal solution at facilities where space is limited such as cafés, restaurants, companies, schools, exhibitions – or simply at home in your garden.

City Combi is easy to move indoors in bad weather. It comes in prefabricated sections that are easy to assemble for a ready-to-use mini golf facility. Each hole is divided into two sections measuring 2,5 meters with an option of a locking device that can snap the parts together and separate them again easily.

All our products come complete with detailed installation instructions and suggestions for different assembly combinations.

Order your courses and get them delivered from our factory in Örnsköldsvik, Sweden, according to agreed delivery time. The customer is responsible for unloading the goods.

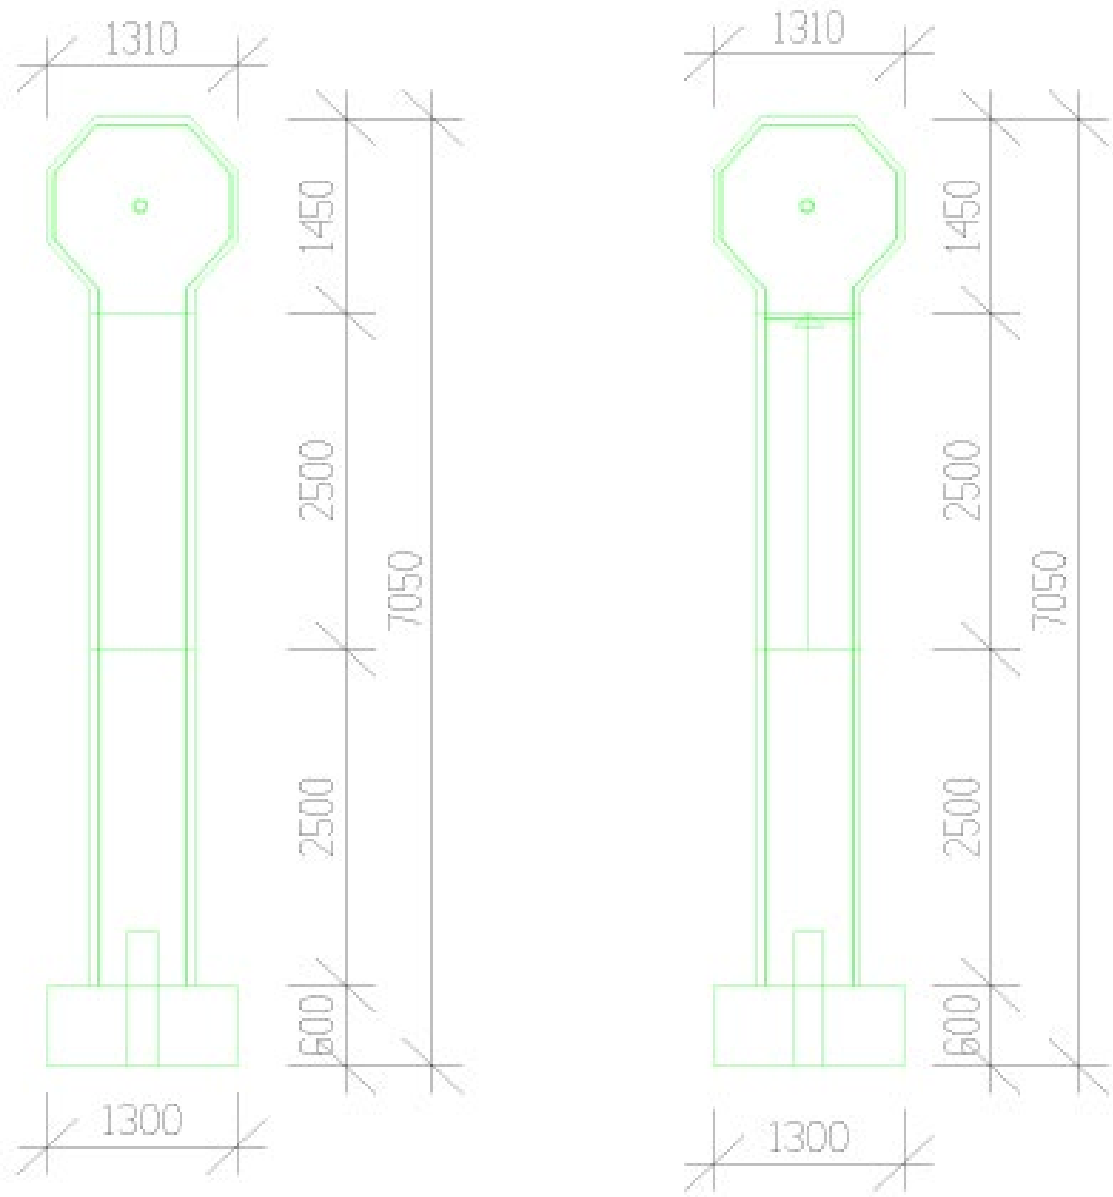

All prices quoted are exclusive of VAT. The payment terms are 30% at time of order and 70% on delivery.

We offer a 3-year guarantee on frames and a 1-year guarantee on the construction and other materials like obstacles.
