

# Renovation

## A profitable investment

A well-maintained and cared for miniature golf course is both attractive and sustainable in the long run. Book a facelift now and increase your revenue!

Our commitment goes beyond simply delivering high-quality miniature golf courses. All products need care and love - even golf courses from City Golf Europe AB. We can offer a range of aftermarket services to make your course feel like new again.

We can improve everything from frame, to felt mat, tee plates, plastic mouldings, obstacles and more. Did you also know that many people take the opportunity during a renovation to switch from a felt mat to an artificial grass mat on the courts?

To keep costs down, you as a customer are responsible for paying our staff. The accommodation must be equipped with internet, WC/shower and cooking facilities. The accommodation must be authorised by City Golf Europe.

## Steps towards improvement

Book your renovation now with Simon Sedin. Send an email to [service@citygolf.com](mailto:service@citygolf.com)!

Don't forget to keep yourself updated with accessories to continue to keep your facility attractive for your visitors!

With us at City Golf Europe you will find all the accessories you might need, such as putters, balls, protocols, club wagons, ball racks and much more.

Why not also invest in some new fun and challenging obstacles to enhance the gaming experience?

Order via email or call us and we'll take make sure that you have what you need to keep your facility in the absolute best condition!

5% discount for a Lighthouse obstacle \*
